

ATTENTION!

AT THE MOMENT THERE IS NO NORM TO REGULARIZE FOREIGNERS IN ITALY!

The rumors spread through social networks and whatsapp messages regarding the existence of a rule that would regularise foreigners living in Italy by sending KIT to the post office are absolutely false.

Those **instructions are false and dangerous** because:

- The procedure started by **sending KIT**, even if authorised by post offices, **does not currently regularise** foreigners who are in Italy without residence permit, nor does it allow people holding a temporary residence permit as asylum seekers (*permesso di soggiorno per richiesta asilo*) to obtain a working residence permit (*permesso di soggiorno per lavoro subordinato*);
- They are **real scams** considering that in many cases illegal payments have been required to pick up, fill in and send the KIT;
- Due to lack of official information, **sending the KIT may be counter-productive** and can hinder the possibility of obtaining a residence permit in Italy in the event of real publication of a regularization procedure;
- Sending KIT could expose people to risks such as expulsion (*espulsione*);

A.S.G.I. invites foreign citizens to contact associations, humanitarian organisations, help desks, trade unions in order to request correct information before proceeding or sending any request.
